1. Broad Band Internet Access includes the necessary hub or switches and cabling. All computers to be hooked up to the Internet must have an Ethernet Card in their PC or laptop
2. Telephone line and telephone rental charges do not include long distance charges. Long distance charges are billed separately.
3. A technician is recommended when there are extensive equipment needs, when the group is providing their own equipment and when the operation of the equipment is critical to the success of the meeting. All equipment rented through the hotel will be set and tested prior to the scheduled start time. Price of equipment does not include operators or technicians.

Groups providing their own equipment must take complete responsibility for set-up and operation of that equipment. All equipment (including removable parts & cords) must be labeled with the owner's name. Hotel is not responsible for loss of any articles (to include equipment) left in the hotel prior to, during or following a function.

Prices are subject to change
